BREXIT DEBATE: IMPACT ON SOUTH WEST CONSTRUCTION INDUSTRY

The historic vote on 23rd June 2016 for the United Kingdom to leave the European Union, will have wide ranging consequences. Theresa May, the new Prime Minister, has said clearly that "Brexit means Brexit" and that Article 50 will be signed by March 2017.

However what might Brexit actually mean for us in the **Built Environment in the South West of England**? This debate will aim to get to the heart of the issue by probing a panel of experts with the questions that mean the most to us all.
