

Ready Steady Light 2017

Tuesday 21st March 2017, Rose Bruford College, Sidcup, Kent

Once again SLL is organising this successful event when up to 14 teams will compete to design an exterior lighting scheme in just 180 minutes given a range of equipment. This year's theme remains as a return to basics whereby the site should be lit in its natural state without the use of props borrowed from around the site. There are likely to be more applications for teams than we can accommodate so we are restricting entry to one team per organisation. We would also like to encourage team organisers to include first-timers to the event in their teams. **Each team must be led by an SLL member.**

Judging will be in 3 categories:

- Most Creative Effect based on the natural features of the site and the theme. Judged by an expert panel.
- Best Technical Solution for taking into account energy use, light pollution and health & safety. Judged by an expert panel.
- Peer Prize. Judged by other contestants.

Prizes will be offered for the best schemes in each category.

REGISTRATION FORM

Name of SLL member:

Other members of team (max 5):

Address:

Daytime Tel:

E-mail:

PAYMENT

Team entry: £150 inc. VAT

Please make cheques payable to 'CIBSE' or by credit card below.
