

CIBSE ANZ August Newsletter

Dear Member

We hope you've had a great month so far and are ready for another round of exciting news and upcoming CIBSE events.

All the best,

The CIBSE ANZ Team

Three ways you can verify and protect your building services from cyber threats

Building services' systems and networks have reached a stage of ICT convergence where there is no longer the option to set and forget your infrastructure for 15 years. "Those days are gone", suggests Wayne Gass, a Senior Security Consultant, with 10 years of experience at Jacobs.

The Maldives' answer to rising sea levels

Throughout history, engineers have faced off the challenges of climate change, balancing function with user experience. Few have been more elegantly combined than the world first underwater hotel on Conrad Maldives Rangali Island.

A review of high performance buildings

Last month, property group Charter Hall hosted the CIBSE NSW Presentation on High Performance Buildings – a perennially popular topic. The evening saw presentations from Energy Action's Sally Carmichael and PC Thomas from Team Catalyst as well as an extended Q&A session on the design, commissioning and optimisation of buildings to reach their full energy efficiency potential.

Linkedin post of the month

Attended a great presentation last night by Bruce Ramus of Ramus Illumination on the some of the great public lighting projects he has designed in Sydney, Melbourne and Perth I particularly like the opportunities he has created for the public to interact with their cities through the medium of lighting. I love his interactive lighting of the facade of the Commonwealth
