

CIBSE ANZ

January Newsletter

Dear Member

Welcome to the first CIBSE ANZ Newsletter of 2018. We hope you had a great festive break and are refreshed and ready for action!

Take a look below at some of the exciting news and events we're kicking the year off with.

All the best,

The CIBSE ANZ Team

ANZ 2017 Highlights

What a year 2017 has been for the CIBSE ANZ region. Celebrating its 30th anniversary has to be the biggest highlight but it was also a year for many new initiatives, including this regional monthly eNewsletter and the new Talking Buildings podcast. The Young Engineers Awards also went regional and for the first time, CIBSE ANZ sent 3 YEN Chairs to the global Conference in the Middle East and to end on a big win, after 2 years of hard work from the New Zealand committees, CIBSE New Zealand is now incorporated, to serve local members better.

There are plenty more new initiatives planned for 2018 with a strong focus on increasing CPD training and development opportunities, online and face to face.

ANZ Annual Cocktail Function – Venue confirmed

Is Engineering an Artform? The newly refurbished venue for 2018 CIBSE ANZ Annual Cocktail Function and Young Engineers Awards suggest yes. Combining science, art and history, the Westpac Long Room at the Australian Museum in Sydney is booked for 21 June 2018. Young Engineers, graduates and engineering students are encouraged to make their mark by answering a simple question.

CIBSE QLD - Fire Stopping of Services Penetration

Date: 31 January 2018

Venue: WSP, [Level 3, 69 Ann Street, Brisbane City, QLD, 4000](#)

Life safety is the responsibility of everyone in the construction industry. The design has to be right. The installation has to be right. Ongoing operations and maintenance programs have to be right. But what is 'right'?

CIBSE SA - U-City: Emergency Response in a radical mixed-use high rise building

Date: 8 February 2018

Uniting Communities has embarked on its \$100 million project to create a 20-storey, mixed-use development in the heart of Adelaide's CBD.

The presentation will describe the development itself, and the challenge presented to the project team required to meet criteria for regulatory approval, and provide comfort to occupants that this development was as safe as it could be in an emergency. It will consider the process followed to guide both the technical and operational aspects of the solutions employed, to achieve this objective.

CIBSE WA - How to Optimise Building Performance with Analytics and Diagnostics

Date: 22 February 2018

Join the CIBSE WA and SBSE WA Chapters for a presentation from Andrew Crabtree, where Andrew will use case studies to illustrate common issues and how to resolve them, not just during the Building Tuning period but as an ongoing tool to optimise long-term building performance. This presentation will be of considerable interest to those involved with commissioning HVAC systems.
