

CIBSE ANZ Newsletter

December 2017

Dear Member

Welcome to the last 2017 edition of the CIBSE ANZ Newsletter.

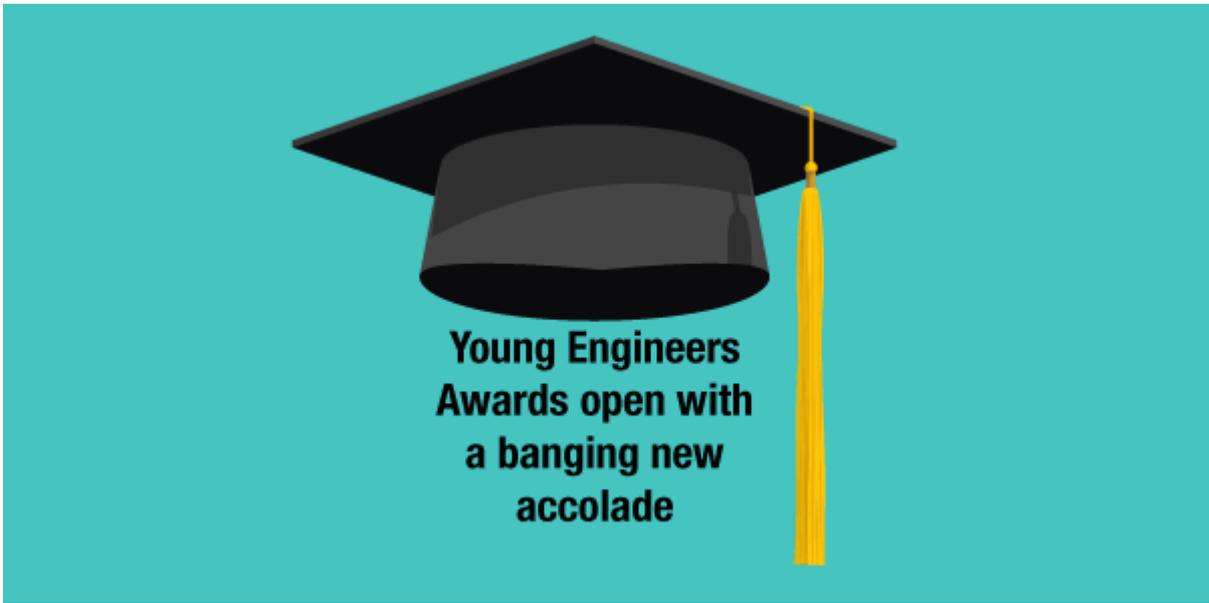

We have had an incredible year and want to say a huge thank you for all your support and involvement in making 2017 such a successful year.

So, before you tuck into a well-earned mince pie, take a look at the final news updates we've put together for you.

Have a great Christmas and we'll see you next year.

The CIBSE ANZ Team

Young Engineers Awards open with a banging new accolade

Giving passionate, young engineers a voice and a chance to step out of the shadows is what the Young Engineers Awards are all about. That's why, in its second year, this ANZ region-wide competition has added a new category to the line-up for 2018.

CIBSE NZ – Now Incorporated to serve local members better

CIBSE NZ members will for the first time have the opportunity to formally engage with decision making and have their say in how the institution is run, locally. This is because the Chartered Institution of Building Services NZ is now incorporated under the Incorporated Societies Act 1908.

Building Commissioning goes into the Innovation Incubator

Building Commissioning goes into the Innovation Incubator

Standards Australia recently launched its 'Innovation Incubator'. The Incubator was established to bring the agility, thinking, processes and project methodologies of a start-up to Standards Australia and embed an open innovation mindset across its internal and external business operations.

CIBSE collaborated with stakeholders from across the Building Commissioning value chain at an interactive workshop to tackle the issues associated with Building Services Commissioning.

A Young Engineer's Journey to London

CIBSE ASHRAE Young Engineer Finalist, Baoying Tong had never been to London before he boarded his flight for the Award Ceremony last month but that wasn't the only first for Baoying on this journey. The opportunity opened up a spectrum of experiences for the young engineer.

EVENTS

Fire Stopping of Services Penetrations

QLD - Fire Stopping of Services Penetration

Date: 31 January 2018

Venue: WSP, Level 3, 69 Ann Street, Brisbane City, QLD, 4000

Life safety is the responsibility of everyone in the construction industry. The design has to be right. The installation has to be right. Ongoing operations and maintenance programs have to be right. But what is 'right'?

Let's Talk

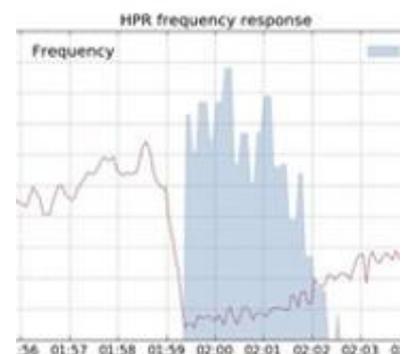

Tweet of the month

@CarlosFloresLen

This is fascinating. 5 Australian coal power plants break down unexpectedly within a week, and the SA Tesla battery saves the day in milliseconds. Are batteries going to dramatically change the

electricity grid much sooner than we thought? [Click to view](#)

LinkedIn post of the month

**Wayne Allison, Greenstar
Mechanical Services**

What does my Air-conditioning
have to do with Fire Safety and
why should I care?
