CIBSE Careers Resources

Designed specifically for students, the building services factsheets promote the benefits of working within the building services industry and provide clear guidance on how to get a foot on the building services career ladder.

The careers supplement is issued annually, currently bound into the CIBSE Journal February edition, but also available separately for careers events.

If you are going into a school or careers event to promote building services to students, the CIBSE careers presentation and speaker’s notes are also a great resource.

All available here: www.cibse.org/building-services/downloadable-resources

Useful Careers Links:

STEMNET run the UK’s only network of STEM Ambassadors: over 30,000 brilliant and inspiring volunteers. Across the UK, STEM Ambassadors volunteer their time and support to promote STEM subjects to young learners in a vast range of original, creative, practical and engaging ways: www.stemnet.org.uk

Joint Training Ltd is a charity offering a number of services including apprenticeships in the building services industry: www.jtltraining.com

Information about careers in construction, from the Construction Industry Training Board: www.citb.co.uk/bconstructive

Information and resources about careers available throughout the engineering profession: www.tomorrowsengineers.org.uk

Design, Engineer, Construct is a CIBSE supported, accredited learning programme for secondary-school age students and has been expertly developed to create and inspire the next generation of Built Environment professionals: designengineerconstruct.com/
