Michelle Wong

APPOLOGIES
Mr Steve Hobson (Vice Chairman)
Richard Young
DISTRIBUTION
Those present plus, Lifts Group web site
Dr Ken Butcher (CIBSE), Nyree Hughes (CIBSE)
1. **Welcome and apologies**
The meeting was opened by MB. Apologies were received from Steve Hobson and Richard Young.

2. **Election of officers**
The following people were proposed and elected unanimously as officers of the Lifts Group:

   - Chairman, John Bashford (also responsible for Exhibitions)
   - Vice Chairman, Len Halsey
   - Secretary, Richard Peters
   - Treasurer, Michael Bottomley
   - BSI Representative, Adam Scott
   - Events Organiser, Gina Barney
   - Publicity, Elizabeth Evans
   - Lift Academy, David Cooper
   - Phil Pearson

3. **Minutes of previous meeting**
The previous AGM had been circulated. They were reviewed and accepted without amendment.

4. **Matters arising**
There were no matters arising not on the agenda.

5. **Heritage group**
Nothing to report.

6. **Report for 2012**
RP presented a summary of the activities for 2012. His slides are attached to these minutes.

7. **Treasurer’s report**
The accounts had been circulated prior to the meeting. A copy is attached to these minutes.

   In the last year we have spent some of our assets on copies of BS7255. We had also sponsored Ana Lorente with a Scholarship relating to her work to support the ISO Committee TC178/WG10 which is writing Part 2 of ISO/DIS25745 – “Classification of energy efficiency of lifts, escalators and moving walks”.

   AR was standing down from the committee, and was thanked for her work.

8. **Standards and Regulations**
AS’s report is attached to these minutes. He requested in particular that people take time to provide feedback when a “Draft for Public Comment” is issued.
9. Any other business
None.

10. Presentations
The meeting was preceded by a presentation on “Strepy Thieu Boat Lifts” by Michael Bottomley and the evening concluded with a presentation about “The Real Cost of Lift Maintenance” by John Bentley. The slides from both presentations are included in the Archive section of www.cibseliftsgroup.org
Welcome and apologies  MB

3rd Symposium
26 to 27 September 2013
Evening Meeting
Manchester University
17 October 2012

The Engineer in Court, Richard Hulmes, SAFed

HSE & Lifts: What you don’t know, but should
Rob Cooper, HSE

24 people attended

Annual Seminar 13 November
2012, Balham

Dr Richard Peters, Peters Research Ltd
Adrian Shiner, Consulting Engineer.
Michael Bottomley, Lerch Bates Ltd.
Dr Gina Barney, Gina Barney Associates
Nick Mellor, LEIA
Derek Smith, Consultant

All participants received a copy of: BS7255: 2012 Safe Working on Lifts

76 people attended

To be repeated 6 March 2013
Manchester
£1000 scholarship
PhD Student, Ana Lorente

Used to support travel expenses to Washington, attending ISO Committee TC178/WG10 “Energy efficiency of lifts, escalators and moving walks”. WG10 is writing Part 2 of ISO/DIS25745 – “Classification of energy efficiency of lifts, escalators and moving walks”.

Ana is supporting the WG by providing scientific evidence to formulate the methodology.

Ana also presented paper at Lift & Escalator Symposium

Dr Gina Barney - 1 February 2013

Signed by Agnes Rothery, Treasurer
Date 5 February 2013
AJS attended the meeting in his capacity as the CIBSE Lifts Group BSi representative. The following key items were discussed and recorded below as an update to Lifts Group members.

**Draft BS EN 81-20**

*Safety rules for the construction and installation of lifts - Lifts for the transport of persons and goods*

*Part 20: Passenger and goods passenger lifts.*

**Draft BS EN 81-50**

*Safety rules for the construction and installation of lifts - Examinations and tests Part 50: Design rules, calculations, examinations and tests of lift components.*

Major revision documents now due for publication June 2014. Compliance is likely to be recommended from the date of publication and mandated for any equipment contracted to be placed into service after June 2017.

**BS EN 81-22**

Has now had premature reference to Parts 20 & 50 removed and is awaiting final approval for publication.

**BS EN 81-28:2003**

*Safety rules for the construction and installations of lifts — Lifts for the transport of persons and goods Part 28: Remote alarm on passenger and goods passenger lifts.*

Members states are being consulted as to whether they consider a revision is necessary. Initial thoughts were that one was not however the discussion is not yet concluded.

**BS EN 81-77**

*Safety rules for the construction and installations of lifts - Particular applications for passenger and goods passenger lifts - Part 77: Lifts subject to seismic conditions*

Now in process of formal vote with all comments resolved. Should see publication around September 2013.

**BS EN 81-70:2003 Incorporating Corrigenda Nos. 1 and 2**
Safety rules for the construction and installations of lifts — Particular applications for passenger and goods passenger lifts — Part 70: Accessibility to lifts for persons including persons with disability

WG7 has now been mandated with the revision of this document which will commence this year.

BS EN 81-72:2003
Safety rules for the construction and installations of lifts — Particular applications for passenger and goods passenger lifts — Part 72: Firefighters lifts

This standard’s 5 year review is now underway with committee seeking agreement on the scope of proposed revision. Some concern being expressed by the UK over the scope of revision debate which is seeing certain countries seeking inclusion of requirements that only apply in their specific country. UK keen to position itself as the installer of more firefighters lifts than any other country and therefore the influential “expert” on the subject. Draft for public comment will be forthcoming in due course, probably next year.

BS EN 81-73:2005
Safety rules for the construction and installations of lifts — Particular applications for passenger and goods passenger lifts — Part 73: Behaviour of lifts in the event of a fire

This standard’s 5 year review has started this month and will seek to clarify, amongst other issues, the confusion over whether the standard applies to all lifts. Draft for public comment will be forthcoming in due course, probably next year.

BS EN 81-58:2003
Safety rules for the construction and installations of lifts — Examination and tests— Part 58: Landing doors fire resistance test

This standard’s 5 year review is now overdue however start on this work is in abeyance awaiting the finalisation of EN81-20 which is expected to introduce changes to the door design.

BS EN 81-41:2010
Safety rules for the construction and installation of lifts — Special lifts for the transport of persons and goods - Part 41: Vertical lifting platforms intended for use by persons with impaired mobility

A debate is beginning on a proposal to review the scope of Part 41 to include for use by all people (i.e. not just those with impaired mobility), to include for enclosed hoistways and cars and to automate control, to intents and purposes create a “slow speed lift” standard.

There is concern that products currently compliant with BS EN 81-41:2010 are not designed to be used by all and are not “slow speed lifts”; there may therefore be a risk of creating products that may not be fit for purpose. A preferable approach would be to consider a new “slow speed lift” standard as it is not permitted to redefine the scope of a published standard.
BS 5656 :Part 1 : 1997 Incorporating Amendment No. 1
Safety rules for the construction and installation of escalators and passenger conveyors Part 1.
Specification and proformas for test and examination of new installations

Working draft is now complete.

The Building Regulations 2010  Approved Documents
The set of approved documents providing guidance to compliance with the Building Regulations has recently been revised and updated. Copies of the revised Approved Document M can be found at:

with a summary document of changes to all Approved Documents at:

Members are reminded to look out for Lifts Group e-mails which draw their attention to the publication of new standards, both Draft For Public Comment (DPC) and final versions. Members are particularly encouraged to review and submit comments on DPC publications as this is the best way to influence future codes and standards.
